

# ANUSHA GAJANAN BHAT

EMAIL | +917019725526 | GITHUB | LINKEDIN

BENGALURU, INDIA

## EDUCATION

Nitte Meenakshi Institute Of Technology | GPA: 8.69 Feb 2024 - July 2025

MCA | Master of Computer Applications

Oxford Degree College Of Computer Applications | GPA: 7.81 Oct 2020 - Oct 2023

BCA | Bachelor of Computer Applications

## SKILLS

**Foundational:** Data Structures | Operating Systems | Networking | Agile | ML | Data Science

**Languages:** Python | SQL | JavaScript

**Technologies:** HTML | CSS | MySQL | TensorFlow | AWS Cloud | Selenium | React.js | Node.js

**Tools:** Git | VS Code | Figma

## PROJECTS

**Color-Fusion E-commerce Platform for cosmetics** | HTML, CSS, React.js, Node, MySQL, Docker

Developed and deployed a cosmetic e-commerce platform with a complete MERN-style architecture.

- Built a responsive frontend using HTML, CSS, and React.js, integrating features such as user authentication, shopping cart, and product filtering.
- Designed and implemented RESTful APIs with Node.js and MySQL, ensuring secure and optimized data transactions.
- Dockerized the full application to streamline development and deployment, enabling easy setup across different environments.

**Diabetes Analysis And Detection** | Python, Scikit-learn, Seaborn, Matplotlib, Pandas.

System to detect diabetes employing Support Vector Machines (SVM)

- Performed data preprocessing and feature engineering on large datasets, handling missing values, normalizing features, and splitting data for training and testing
- Conducted performance evaluation and analysis using accuracy, precision, recall metrics, and visualized model results with Matplotlib and Seaborn for insights.

**SafeNet Assist- AI Driven cybercrime helpline chatbot** | Python, Flask, HTML, CSS, JavaScript, OpenAI API, rasa.

Developed a cybercrime helpline chatbot to assist users in reporting and understanding cybercrimes.

- Designed and built a conversational AI chatbot using Flask and OpenAI API to guide victims of cybercrime through proper reporting steps and legal awareness.
- Integrated user interface with HTML, CSS, and JavaScript for smooth interaction and responsiveness.
- Implemented secure file upload, response generation, and data handling features while ensuring ethical handling of sensitive information.

## CERTIFICATIONS

Google Cloud Computing Foundations | SWAYAM NPTEL Nov 2024

AWS Academy Graduate - Cloud Foundations | AWS Academy Nov 2024

## INTERESTS

**Hobbies:** Reading Novels | Doodling | Cooking
